UPTON MILL CARE HOME

-

Upton Mill Care Home is a new luxury 64-bedroom care home facility offering exceptional care and comfort to its residents in a community setting. Arranged over two floors, Upton Mill provides home-from-home accommodation for residents with a range of differing care requirements, including residential, dementia and nursing care.

THE BACKGROUND

This scheme involved looking at the previous homes and considering enhancements that would go above and beyond the necessary requirements for luxury residential care to differentiate them from other care homes.

THE BRIEF

To apply thought and innovation to create a sophisticated home from home environment that is aesthetically pleasing but functional in aiding resident navigation, wayfinding and familiarity within the home that has a welcoming and homely familiarity for residents, families, and staff members.

THE PROCESS

In total, six themed lounges were created, from a London to botanical theme, the schemes provide a little fun whilst appealing to particular tastes and moods. The variation offers residents defined and recognisable spaces that are decorated and accessorised with their comfort in mind. Particular design attention went into creating calming quiet spaces. Bold enough to be identifiable but soft enough to be calming, these spaces are for all but have particular appeal to those with dementia. From a wellbeing room to a quiet lounge, and feature corridor ends. These spaces have been designed to be functional places, they are designed as feature spaces where people can retreat, relax, or just take time to sit.

THE RESULT

Working with Porthaven Commercial Director The Care Home Interior Company team considered every interior detail. From perfectly selected wallpaper, to cushion detailing, every last ornament and picture, the ease and silence in use of a curtain rail, handcrafted and bespoke furniture. The Care Home Interior Company provided every lasting detail throughout. With personal tastes high on the design agenda, each resident bedroom is unique in design and scheme, reinforcing it is a home not an institution.

FEATURES

An intuitively designed home that enables easy navigation and accessibility for all.

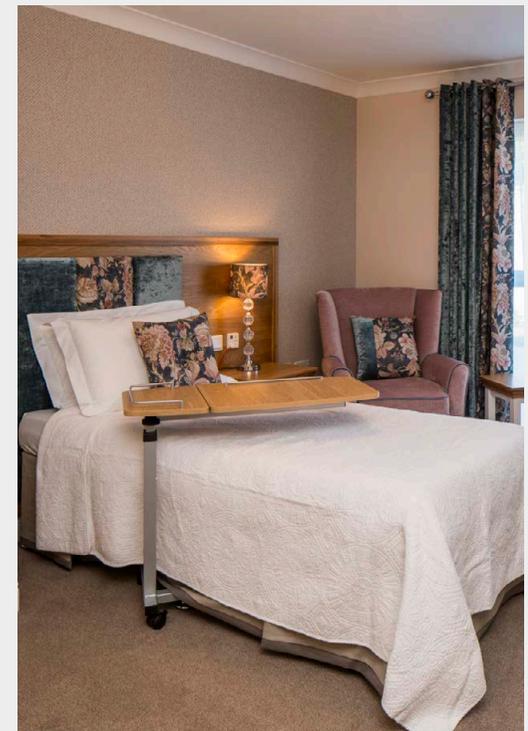

Welcome and homely familiarity for residents, families and staff members.

Promotes independent living and personal fulfilment by providing choice and variety in every aspect of daily life.

Environments that put residents at ease, promote wellbeing and soothe those with complex care needs.

Innovative design features and aesthetics that surprise and delight every resident, visitor and staff member.

Every texture and contrast, and every feature chair and cushion, is perfectly designed for personal fulfilment.

“

Handmade furnishings achieve a homeliness that their factory-made alternatives simply can't. The quality of craftsmanship is so good, it softens our homes and makes them welcoming.
