## TRENT BRIDGE CARE HOME

Trent Bridge Care Home, by Tanglewood Care Homes in Nottingham, is a 72-bed luxury care home in West Bridgford, an affluent market town just two miles from the city centre. Built across five impressive levels on a compact plot, the home is a striking example of how thoughtful design can make the most of every inch of space.

With its incredible roof garden and far-reaching views, the home offers far more than a place to live. It provides a vibrant and uplifting setting where residents can enjoy social connection, comfort, and a strong sense of place.

## THE BRIEF

Not just to reflect the surroundings but to create spaces that feel joyful, playful, and homely, bringing residents closer to the familiar landmarks of their past.

## THE SOLUTION

With views overlooking Trent Bridge Cricket Grounds and Nottingham Forest nearby, we crafted themed areas that celebrated the local sports heritage, enhancing residents' sense of connection to the community.

The home offers diverse spaces to cater to various interests and lifestyles, blending comfort with familiarity to create a feeling of home.

A significant design achievement was creating a connected interior environment designed to reduce potential confusion for residents with dementia and fostering a comforting atmosphere.

## HIGHLIGHTS

Every detail, from the cosy upholstery to the inviting decor, reflects a commitment to creating a warm and welcoming environment.

The cricket-themed Visitors/Wellbeing Room was meticulously designed with bespoke 3D artwork using vintage cricket memorabilia.

A significant design achievement was dividing the originally open-plan lounge and dining areas. By introducing a wallpapered dividing wall with fretwork details, the spaces feel separate yet connected, reducing potential confusion for residents with dementia and fostering a comforting atmosphere.

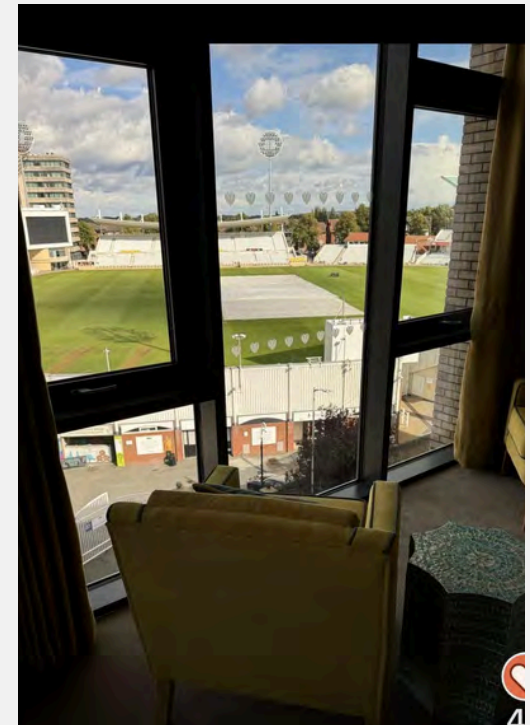

The home's "crowning glory." The roof terrace provides panoramic sights of the cricket ground, Nottingham Castle, the River Trent and both Nottingham Forest and Notts County's football grounds creating not just a talking point but a source of joy for residents.

Whether someone prefers a quiet nook with a view of the cricket grounds or a vibrant space to socialise, there is a place for every preference, empowering residents to shape their own daily experiences.

## HIGHLIGHTS

Carefully positioned balconies and the expansive terrace were designed to capture some of Nottingham's most iconic views, including Trent Bridge Cricket Ground, Nottingham Forest and Notts County's football stadiums, Nottingham Castle, the original Trent Bridge, the River Trent, the country park and the council offices.

More than a spectacular architectural feature, this elevated outdoor space creates a powerful sense of connection to place, offering residents an ever-changing backdrop, a natural talking point, and a source of daily enjoyment.

## THE RESULT

Trent Bridge Care Home's interior design seamlessly integrates local heritage, choice, and comfort, creating an environment that truly feels like home.

Every design decision, from the layout to the bespoke artwork, contributes to a nurturing and accessible space where residents can live independently, engage meaningfully, and feel a sense of community and belonging.
